Backend: Node.js, Express.js, RESTful APIs, JWT Auth, Socket.io
Database: MongoDB, MySQL
Tools & Platforms: Git, GitHub, Postman, Cloudinary, Render, Vercel
Core Concepts: Data Structures & Algorithms, OOP, DBMS

Experience

Freelance Full Stack Developer **Jan 2025 – Present**
Self-Employed *Pune, Maharashtra*

- **SR Group Builders** (srgroupandbuilders.com): Built a real-estate website with a CRUD-based CMS so the client can manage property listings, and applied SEO best practices to improve search visibility and inquiries.
- **Karmaveer Science Academy** (karmaveerscienceacademy.in): Built an educational platform with online admission forms and an online test module, reducing manual processing for the institute.
- Delivered both projects end to end with React.js, Node.js, Express.js and MongoDB, from requirements and development to deployment and client handover.

Aspire Software **Jul 2022 – Aug 2022**
Web Developer Intern *Pune, Maharashtra*

- Built responsive UI components with HTML5, CSS3, Bootstrap and JavaScript, tested across desktop and mobile devices.
- Integrated REST APIs using JavaScript and optimized front-end loading to improve page performance.
- Resolved 15+ UI/UX issues through Git-based collaboration with design and QA teams.

Projects

Chatter AI Box | *React.js, Node.js, Express.js, MongoDB, Socket.io, JWT, Resend, Cloudinary* **Nov 2025**

- Built a real-time chat application with instant messaging powered by Socket.io.
- Integrated AI-powered responses and real-time message translation to support cross-language conversations.
- Added image sharing with Cloudinary and JWT-based authentication.
- Implemented email invitations using Resend and protected API endpoints with Arcjet.
- Live Demo: chatter-ai-box-frontend.onrender.com — GitHub: github.com/awadi99/Chatter-Ai-Box

E-Code Solutions | *React.js, Node.js, Express.js, MongoDB, Mongoose* **Oct 2025**

- Built a full-stack MERN platform for submitting, tracking, and recycling electronic waste.
- Implemented role-based access control for Users, Companies, and Admins to manage each stage of the workflow.
- Optimized MongoDB queries with Mongoose using indexing for faster data retrieval.
